FIG. 20 is a schematic diagram of a system for controlling a video camera. The system includes a video camera 520, a video signal processor 522, a video signal generator 524, and a video signal receiver 528. The video camera 520 is connected to the video signal processor 522, which is connected to the video signal generator 524. The video signal generator 524 is connected to the video signal receiver 528. The video signal receiver 528 is connected to the video camera 520. The video signal processor 522 is connected to the video signal generator 524. The video signal generator 524 is connected to the video signal receiver 528. The video signal receiver 528 is connected to the video camera 520.
